

Hi Victoria,

I'm fine fully recovered now thank you. I hope all is well with you and yours?.

Thank you for approaching me to do this work, yes, I would be interested.

I used to do something similar with the shelters in Asfordby. They were cleaned every six months with a jet washer and any repairs reported back the Parish Council with a quote for the repair.

Presumably its all three shelters in the village that require attention? I would suggest monthly cleaning would be excessive but every 6 months worked fine for Asfordby. As I walk past the shelters on a regular basis I could report any maintenance required to the council as necessary.

As the shelters have not been maintained for a while two of them will require the shrubbery to be cut back so for this and an initial clean the price will be £180.00.

The ongoing price would be £40.00 per shelter every six months to jet wash with a suitable solvent and rinse clean. Additional work would be on an as required basis.

I hope this meets with your approval.

N.B. I think its too late in the year to resume cutting the grass on Main Road I will restart in spring next year.

Kind regards

Derek
