This Shed Is Alarmed Sign

£0.51

These stickers and signs act as a visual warning to opportunist thieves that the home owner has taken precautions to secure their property. It also reminds owners to keep their valuables safe and secure and raises awareness of different types of theft

CCTV Warning Sign

£0.51

If a business or organisation uses a CCTV system, they must display a legally-appropriate warning sign to warn people that a CCTV system is in use. This is in compliance with the Data Protection Act 1998. Home owners and private users are exempt from this rule. We have a selection of CCTV warning signs and stickers that can be installed on a fence or wall or placed in a window to warn people that the property is protected by CCTV. Displaying a warning sign can act as an additional deterrent for would-be intruders.
